

# PQI

Is there something at work that needs to be improved?  
Do you have ideas but need support?  
Do you want to lead change and innovation?  
If yes, we can help!

## PHYSICIAN QUALITY IMPROVEMENT LEVEL 3 ADVANCED COHORT TRAINING APPLY FOR QI TRAINING AND PROJECT FUNDING

### 10 month cohort training

- Ten months from August to May
- Interactive training days with lectures and group activities

### QI project support

- Full project support and mentorship from PQI physician alumni, program advisor, and data analysts
- Project endorsement from VCH/PHC medical and operational leaders
- Access to data, QI resources and templates

### Sessional Funding & CME

- Choose between 10 or 15 hours of funding per month
- Training sessions are UBC CPD accredited

### What makes a good QI project?

- aligns with the vision, values, and goals of the organization
- focuses on opportunities to improve quality patient care
- has local, operational support
- is amenable to a QI approach, where changes are developed and then tested locally with PDSA cycles (the project is not simply an implementation of a single pre-conceived change idea)
- focuses on a problem that occurs frequently enough for meaningful data to be collected over a 10 month period
- does not rely on significant investment of new resources (equipment, staff, etc.)

Application accepted between Dec 9 - Jan 20, 2025. For more information and application instructions, [visit our website here or scan QR code.](#)
